

# Optimize Daily Workflows with Automation

Kareo and PatientlySpeaking's exclusive partnership creates a seamless data conduit between billing companies and their practices. With Kareo's intuitive billing platform and PatientlySpeaking's robotic process automation (RPA) bots, you can standardize your billing processes—regardless of the systems your practices use. With mundane daily tasks streamlined, you're free to focus on managing your business and being a valued resource to clients.

## Create Your Custom Intelligent Data Pipeline

PatientlySpeaking features a robotic process automation (RPA) solution. Users can take information from disparate systems, layer them with established business rules and logic, then generate a clean upload of encounters and patient information directly into the Kareo platform. From there, Kareo's robust billing company solution allows you to have full control over your clients' claims process.

### 4 Quick Steps to Getting Cleaner Data

#### 1. Automated

PatientlySpeaking automatically pulls in data from disparate sources—eliminating the need for paper, faxes, couriers, and manual data entry.

#### 2. Augmented

The bots know what the Kareo system needs and augments incoming information with the data needed to ensure a smooth transition.

#### 3. Validated

Before inputting in the system, data is validated to ensure that claim will be processed seamlessly in the Kareo system.

#### 4. Communicated

All errors are stored in a report so you can correct any issues and let the data flow through.

**Over 90%** of transactions processed automatically

### Increase Output, Maintain Accuracy

With Kareo's intuitive user platform and PatientlySpeaking's automation bots working behind the scenes, your business will stay on top of the constant flow of data. Once you set your business rules and logic, the automation bots maintain a consistent and accurate data flow straight into the Kareo system—helping you increase first pass claim rates and decrease reimbursement timelines. This process creates a win for both you and your practices.

### Help Billers Focus On The Tasks That Matter

Automating tasks doesn't take away from your billing staff, it helps your team make a bigger impact on your business goals. Your staff's knowledge and capabilities are better spent on solving problems—leave the manual data entry to the bots.

### Realize Your Revenue Potential—Immediately

Ready to expand your business? Don't let headcount be the reason you can't take on new clients. With Kareo, billing companies are able to on-board practices in minutes—not days. Combined with PatientlySpeaking's automation solution, you can scale your business quickly and efficiently. Kareo with PatientlySpeaking empowers you to proactively go after clients and grow your business on your own terms!

Achieve the same output as 3 full-time employees

200% improvement in claims processing speed
