

PATIENT COLLECT

Patient Payments, Simplified

For practices looking for happier patients and a simplified patient payments process, Kareo Patient Collect leverages the latest technology to deliver an automated, consumer-centric, unified solution that delivers more revenue, faster.

Why Kareo Patient Collect?

Easy and Affordable: Kareo Patient Collect is easy to set up. Activate patient payments within your Kareo account and start processing credit cards right away. We make it affordable by keeping your costs low, with no set-up costs and one flat rate for in-person and online transactions.

Reduce Confusion: Minimize patient confusion by sending intuitive, patient-friendly color statements with easy-to-scan QR codes, reinforced with text and email balance reminders.

Improved Patient Payment Experience: Retain more patients and increase their overall satisfaction by providing a better payment resolution experience.

Take Payments Anywhere: Kareo Patient Collect gives patients the flexibility to pay their bill in multiple ways including online, in person, by mail, or on a mobile device. They can also use Apple Pay,[™] Google Pay,[™] and Microsoft Pay.[™]

Leverage Intelligent Automation: With Automated Patient Billing, you can streamline your patient collections workflow by automatically sending out text, email and mailed statements. Take the guesswork out of patient

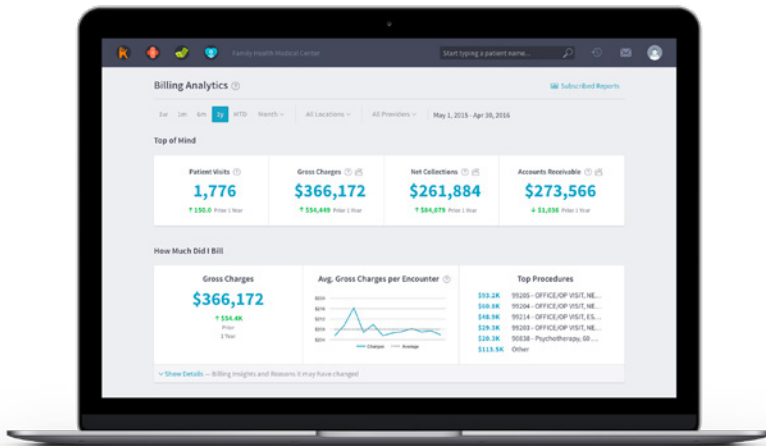

collections and allow our intelligent patient messaging to save you time and get you paid faster.

Reduce Costs: Save staff time spent chasing patient balances through automation and online payments.

Kareo Patient Collect Benefits

- Seamless integration with the Kareo platform
- Automation for effortless patient billing
- Digital communication and QR codes drive online and mobile payments
- Increases the speed of patient collections
- Delivery dashboard informs you of what information has been delivered and when
- No set-up costs

Seamless Integration with Kareo's Platform

Card on File: Upload and save credit cards and billing contact information to process co-pays, deductibles, co-insurance, and any balance owed post-insurance claim adjudication.

Payment Posting: Kareo's integrated payments solution shortens the revenue cycle by allowing you to click and swipe to post a payment and make a transaction immediately.

Simplified Workflow: With a patient's card on file, you can easily capture their balance or future visits. Add Kareo Engage* to receive electronic credit card authorization, helping you to streamline your workflow.

**Kareo Engage required.*
