

## MANAGED BILLING

### Simple Start

## Starting your own medical practice with Kareo Simple Start Program

### Complete practice starter package

For some physicians, the path is clear – you want to start your own practice. You want the autonomy to make your own decisions, the ones that will allow you to take better care of your patients. Starting a medical practice can be the most rewarding undertaking you ever experience. But getting a business off the ground is challenging for anyone, especially with the ever-changing conditions facing physicians today. The Kareo Simple Start program for new practices can help reduce start-up challenges while keeping your initial costs and overhead to a minimum.

### Expert Team

Access a dedicated Kareo Success Team that knows your specialty and what it takes to get up and running. Building upon our collective experience with over 35,000 providers and hundreds of billing companies, your team knows the best practices, processes, and insights to help make your billing effective and your practice successful.

### Modern Technology

Enjoy our fully integrated cloud-based application. Our proven, modern technology automates time-consuming tasks and simplifies workflows with easy to learn and quick to navigate scheduling, check-in, billing tasks, and more. And we're always improving our technology to keep you current in a continuously changing landscape.

### Proven Workflows

Learn established best practices, processes, and workflows to help you to avoid all too common billing errors. You'll understand what you need to get set up on the front-end so your practice can be streamlined on the back-end.
