

# Modern Patient Care, from Anywhere

Kareo Telehealth is a HIPAA and HITRUST-certified video technology that allows your practice to provide a modern, convenient, and seamless patient experience no matter where your patients are.

## Key Benefits

**Improve Patient Outcomes.** Telehealth helps patients comply with treatment plans, manage medications, and engage in lifestyle coaching.

**Reduce Appointment No-Shows.** Improve appointment adherence by eliminating barriers such as transportation or child care.

**Scheduling Flexibility.** Video visits can happen anywhere, anytime. Offer extended hours or weekend appointments without incurring additional overhead.

**Boost Revenue.** Convert unpaid follow-up phone calls and emails to reimbursable video telehealth visits.

**Increase Efficiency.** Minimize office delays and distractions and spend more time delivering care.

 <b>79%</b> of providers now offer telehealth visits	 <b>98%</b> of patients are satisfied with Telehealth video visits	 <b>53%</b> of patients state that telehealth helps increase treatment adherence

Our no-show rate has dropped dramatically, by about 35 percent. We attribute this to both the Kareo reminders and the flexibility and convenience of telehealth.

— Zara Wanlass Co-founder and CEO, Alli Center

## Key Features

**High-Quality Video Visits:** Provide quality care with high-definition video.

**Group Appointments:** Conduct real-time video and audio visits with up to 200 participants.

**Dedicated Provider URL:** Establish trust by conducting each visit in your own secure Telehealth room.

**Virtual Waiting Room:** Get notified as patients enter your virtual waiting room so you know when to join the appointment.

**Custom Patient Communications & Reminders:** Send custom communications around scheduling details, copays, care instructions, and more.

**Easy Online Scheduling:** Patients can indicate their preference for Telehealth appointments through your online provider profile.

**HIPAA & HITRUST-Certified:** 100% secure and HIPAA-compliant technology so you don't have to worry about regulations.
