Fully Customizable

Kareo Analytics goes beyond traditional business analytics solutions by providing you with the power to perform detailed customizations. This enhanced functionality ensures that you see immediate value as well as insights tailored to your needs.

Reports and dashboards

Kareo provides, maintains, and updates a list key reports for immediate use, value, and to build upon to serve your needs.

Create reports from scratch

Use Kareo Analytics to build your own data investigation, analysis, visualization, communication, data extracts and more!

Customize any report or dashboard

Any standard report can be completely customized, from labeling, charts, tables (columns, rows), formulas or benchmarks!

Quick and Responsive user experience

Because all the data is loaded nightly into a data warehouse and then loaded into memory when you access the product, the user experience is quick and responsive.

Integrated view of all your practices and providers

All your Kareo data (all KIDs, all practices and providers, for all time) is at your fingertips for discovery and analysis.

In-App Definitions of the formulas being used

We strive for transparency and you can see what formulas mean, how they are defined, and how to change them to meet your needs
